PACKAGE CONTENTS

Tanjali Game Cassette
Instruction Booklet
Warranty Card

OVERVIEW

Tired of blasting aliens into oblivion? Give your trigger finger a rest and exercise your mind instead. **Tanjali** is so simple that it takes less than a minute to learn—yet it may take you a lifetime to master. And because it is suitable for all ages, the whole family can play. **Tanjali** is the ultimate test of your ability to perceive the world as it truly exists.

GETTING STARTED

To start **Tanjali**, follow these steps (this is called "booting"):

1. Turn the power switch on the left rear of your computer to the on position. Also switch on your color monitor.
2. Insert the Tanjali cassette into your player with the label side up. Completely rewind the tape.
3. Run the tape forward to the end of the leader, using "fast forward."
4. Type *CLOAD* on the keyboard and press <ENTER>.
5. Press the "play" button on your cassette player.
6. Wait until you see *OK* appear on the upper left hand corner of your screen. This may take a moment so be patient. While the program is loading you will see a blinking letter and the program title in the upper left corner of your screen.
7. Finally, type *RUN* on the keyboard and press <ENTER>.

You will now see the **Tanjali** title, and Option Table appear on the screen. If you don't, please try steps 2 through 7 again.

The volume control on your cassette recorder should normally be set at five. However, if you find that you are having trouble loading your cassette program, you may need to readjust the volume control to a different level.

ABOUT TANJALI

Tanjali has been designed to depend upon the right hemisphere of the brain. This hemisphere has been shown to control "intuitive and spatial" functions. In order to score well in **Tanjali**, the analytical functions of the brain should be suppressed. Thus, the secret is not to try—but simply to allow the Answer to register in an intuitive sense. Although everyone has this capacity, it is often undeveloped as a result of our training.

Because intuitive perception is a rapid process, there is a heavy penalty applied to long viewing times. You will not be able to score well if you attempt to memorize the Answer.

HOW TO PLAY TANJALI

Tanjali is simple to play—but not to master. After "booting" the program you will be presented with an Option Table. You will need to select from three playing modes (novice, expert or genius) by typing in the appropriate number. Next, choose the viewing time from fast (9) to slow (1). Now you're ready to play. Just follow these steps:

1. **Tanjali** first presents you with the Answer.

A three by three grid of colored circles, squares and triangles will appear. The length of time during which it remains on the screen is predetermined by you when you select the viewing time.

2. **Tanjali** next presents the Question.

The Answer grid will disappear and a question grid will form. Wait until a blinking star appears in the first frame. Press <Y> if the figure is the same as it was in the Answer grid and <N> if it is not. If you're correct the figure will remain; if incorrect it will disappear. Follow the blinking star and answer each frame in turn. At the end, a scoring column will graph your success.

3. Repeat the cycle.

Press <ENTER> to move to the next answer grid. A full game consists of eight sets of questions and answers. At the end of the game, an absolute numerical score will be assigned. This score will be weighted for viewing time.

WARRANTY MESSAGE

Please take a moment to fill out and mail the enclosed Warranty Card. By having your name on file we will be able to provide better customer service, including information on program updates and replacements of damaged cassettes.

If you have problems running your program, please contact The Software Guild Service Department by calling 1 (800) 341-4000.
